

PRODUCT CATALOGUE

ABOUT

From the land to the sea, Haes has you covered with a leading range of fire system products which are manufactured in the UK and used worldwide.

Haes is ISO9001 certified with additional industry and product accreditations from bodies including LPCB, BSI, MED, Lloyds Register & ABS. With over 45 years experience in the fire industry, the team are focused on helping installers and planners to choose, install and manage fire alarm systems.

Our team of designers, engineers and production specialists constantly innovate the latest fire industry technology, backed by dedicated customer advisers that are on-hand to provide support and guidance.

- ✓ UK Manufacturer
- ✓ Internal R&D department
- ✓ Comprehensive range of products
- ✓ Quality assured with our unique triple testing products
- ✓ Feature rich products designed with the engineer in mind
- ✓ Technical Support

ADDRESSABLE CONTROL PANELS

Auto-learn Function

Event Log

False Alarm Management

Loop Fault Diagnosis

ESPRIT®

The Esprit-A 1-2 loop analogue addressable control panels have been developed to provide a simple to use and cost effective, robust solution for the intelligent fire systems market.

The large graphical display with easy to navigate menus provide fast and simple setup and maintenance.

- One to two loops
- Large graphical display
- Auto learn function
- 240 devices per loop - Argus Protocol
- False alarm management
- 64 programmable groups
- 18 zonal LEDs
- 255 date & time stamped event logs
- Loop fault diagnosis - Argus Protocol

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref MW334E Interpon Powder coat
Mains Supply	Universal switch mode PSU, 1.2A
Battery Capacity	Up to 7Ah 24V VRLA
Loop	Argus Protocol. Up to 2 loops. Each loop - 500mA maximum current
Sounder Circuits	2 x 400mA 21-28vdc
Auxiliary Supply	400mA aux supply output (21-28vdc)
Switch Inputs	Class change & alert (pulsing)
Event Log	255 events, time & date stamped
Display	240 x 64 Graphical LCD backlit

ESPRIT®

The Esprit-A 1-4 loop analogue addressable control panels have been developed to provide a simple to use and cost effective, robust solution for the intelligent fire systems market.

The large graphical display with easy to navigate menus provide fast and simple setup and maintenance.

- One to four loops
- Large graphical display
- Auto learn function
- 240 devices per loop - Argus Protocol
- False alarm management
- 64 programmable groups
- 36 zonal LEDs
- 255 date & time stamped event logs
- Loop fault diagnosis - Argus Protocol

ESPRIT-A 1 - 4 LOOPS

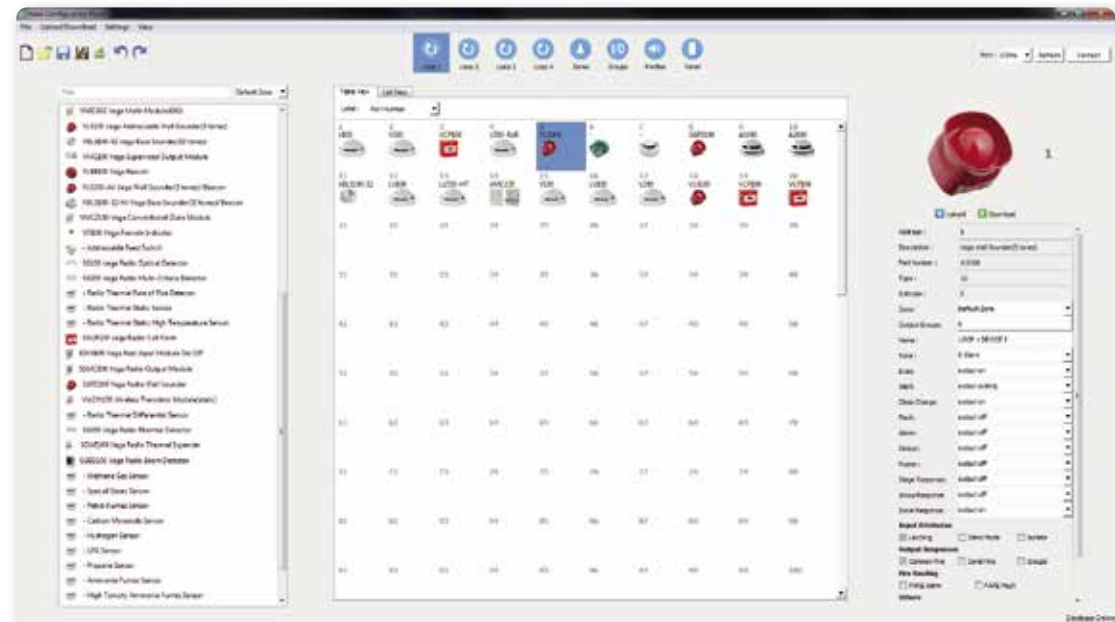

MAIN FEATURES

ESPRIT®

Windows based programming and configuration software. Software is downloadable and requires a standard USB cable for upload/download.

Simple drag and drop action and all details are displayed on one screen.

- Quick 'drag and drop' action
- Easy for engineers to program
- 64 cause & effect groups
- Simple device selection
- All device information on one screen
- Uses standard USB cable
- Software available for download

CONVENTIONAL CONTROL PANELS

ESENTO ECLIPSE

MAIN FEATURES

Twin Wire

One Man Walk Test

ESENTO®

The Esento Eclipse is a 2-4 zone conventional or Twin Wire fire control panel. Even as the entry level panel from Haes, the Eclipse encompasses all of our usual quality & reliability and offers a selection of the most popular Esento features & programming options.

- 2 or 4 zones
- Twin Wire selection by DIL switch
- False alarm management mode
- One man walk test
- Non latching zones
- Class change inputs

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Mains Supply	1.25A internal switch mode power supply, Nom 27v DC
Battery Capacity	2 x 3.2Ah 12v VRLA
Detection Zones	2 or 4. EOL = 4K7R
Sounder Circuits	2 x monitored, fused @500mA. EOL = 4K7R
On Board Relays	1 x Fire, 1 x Fault, 3A, 30v volt free changeover
Outputs	1 x Fire, 1 x Fault 40mA switch -ve outputs
Switch Inputs	Class change & alert (pulsing)
False Alarm Management	Type A dependency mode, approved by LPCB

Order Codes

ECL-2	2 zone
ECL-4	4 zone

Accessories

FMK-ECL	Recessing bezel

OPCARD-8	8 way relay/output card

Suitable for Repeater Panels and RDU
 Networking
 One Man Walk Test
 Twin Wire

ESENTO[®]

The Esento Excel panel is available from 2 to 12 Conventional and/or Twin Wire (sav-wire) zones. All inputs and outputs are fully programmable. The panels include networking as standard across all Excel & Evoque panels plus 3 different modes to help reduce false alarms.

- 2 - 12 zones
- Zonal Twin Wire selection by DIL switch
- Network up to 8 control panels
- Output delay timer
- False alarm modes A, B & C
- Modular expansion cards
- Fully functional repeaters available

ESENTO EXCEL

MAIN FEATURES

ESENTO EVOQUE

Suitable for
Repeater
Panels and
RDU

ESENTO®

The Esento Evoque is our large zone panel offering and is available from 16-32 Conventional zones (No Twin Wire) in a single cabinet. The panels offer a large range of Esento programming features and include networking as standard across all Evoque & Excel panels.

- 16 - 32 zones
- Network up to 8 control panels
- Output delay timer
- False alarm modes A, B & C
- Fire alarm routing output
- Fully functional repeaters available

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Mains Supply	5A internal switch mode power supply, Nom 27v DC
Battery Capacity	2 x 18Ah 12v VRLA
Detection Zones	16, 24 or 32. EOL = 4K7
Sounder Circuits	4 x monitored, fused @500mA. EOL = 4K7
Networking	Up to 8 control panels, fault tolerant RS485 communication, requires TPCA05 network card
On Board Relays	2 x programmable, 3A, 30v volt free changeover
Outputs	4 x programmable 40mA switch -ve outputs
Switch Inputs	Class change, alert (pulsing), silence alarms & reset
False Alarm Management	Type A, B & C dependency modes, approved by LPCB
Delay Timer	On board programmable delay timer 1 -10 mins

Order Codes

XL32-16	16 zone
XL32-24	24 zone
XL32-32	32 zone

Accessories

FMK-XL32	Recessing bezel
TPCA05	Network comms card
OPCARD-8	8 way relay/output card

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Mains Supply	1.25A internal switch mode power supply, Nom 27v DC
Battery Capacity	2 x 3.2Ah 12v VRLA
Outputs	6 x programmable sw -ve outputs (included on network card)
Switch Inputs	Class change & alert (pulsing)
Communication Wiring	Fault tolerant wiring requires 4 core (min 1.5mm) fireproof cable Legacy radial wiring requires 2 core (min 1.5mm) fireproof cable
Compatibility	Suitable for all Excel & Evoque control panels (up to 12 zones)

Order Codes

XLEN-R-12	12 zone repeater

Accessories

FMK-ECL	Recessing bezel
---------	-----------------

Use with Excel & Evoque control panels

ESENTO®

The Emento repeater panel is fully functional with 'Silence', 'Resound' and 'Reset' controls, as well as Disable and Test Mode functions. It is also possible to disable the controls for each or all repeater panels to make them passive (indication only).

- 12, zonal, fire & fault indications
- Up to 8 repeaters on a network
- Fault tolerant or legacy radial communication wiring
- 6 x programmable switch -ve outputs included on network card
- Class change inputs
- Fully functional or passive
- Test mode & disablement function controls

ESENTO REPEATER

MAIN FEATURES

ESENTO REMOTE DISPLAY

MAIN FEATURES

Use with Excel & Evoque control panels

ESENTO®

The Esento remote display unit has a 4 line, 40 character LCD display and can display all fires and faults as well as control; silence alarms, reset, test mode and disablements across an entire network.

- 4 x 40 character LCD display
- Up to 8 RDUs on a network
- Full system control across network
- Programmable zone text
- Fully functional or passive
- PSU fault inputs

Technical Specification

Enclosure	Enclosure 1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Display	4 x 40 character backlit LCD display
Input Voltage	Requires 24v dc supply
Inputs	Optional key switch input
Outputs	1 x Fire, 1 x Fault 24v dc outputs
Communication Wiring	Fault tolerant wiring requires 4 core (min 1.5mm) fireproof cable Legacy radial wiring requires 2 core (min 1.5mm) fireproof cable

MARINE APPROVED CONTROL PANELS

ESENTO MARINE 2-4

Muster Alarm

One Man Walk Test

ESENTO
MARINE

The Esentto Marine 2-4 is a Marine Approved 2 or 4 zone conventional fire alarm control panel which has been exclusively developed to address the issues of limited form and function in the conventional panels market for use at sea.

- 2 or 4 zones
- Muster alarm feature
- False alarm management mode
- Earth fault monitoring
- One man walk test
- Programmable inputs & outputs
- Approved to module B & D

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Mains Supply	1.25A internal switch mode power supply, Nom 27v DC
Battery Capacity	2 x 3.2Ah 12v VRLA
Detection Zones	2 or 4. EOL = 4K7R
Sounder Circuits	2 x monitored, fused @500mA. EOL = 4K7R
On Board Relays	1 x Fire, 1 x Fault, 3A, 30v volt free changeover
Outputs	1 x Fire, 1 x Fault 40mA switch -ve outputs
Switch Inputs	Class change & alert (pulsing)
False Alarm Management	Type A dependency mode, approved by LPCB
Muster Alarm	Selectable per zone

Order Codes

ESEN-2MAR	2 zone, marine approved
ESEN-4MAR	4 zone, marine approved

Accessories

Muster Alarm

ESENTO
MARINE

The Esento Marine 8-12 is a 8-12 zone Marine Approved conventional fire alarm control panel. Exclusively developed to address the issues of limited form and function in the conventional panels market for use at sea these panels include a host of programmable features including networking, muster alarm and output delay timer.

- 8 or 12 zones
- Network up to 8 control panels
- Muster alarm feature
- Programmable output delays
- All inputs and outputs fully programmable
- Earth fault monitoring
- False alarm modes A, B & C
- Voyage Data Recorder card available
- Fully functional repeater available

ESENTO MARINE 8-12

MAIN FEATURES

ESENTO MARINE REPEATER

Use with Esento Marine
8-12 zone control panels

The Esento Marine repeater panel is fully functional with 'Silence', 'Resound' and 'Reset' controls, as well as Disable and Test Mode functions. It is also possible to disable the controls for each or all repeater panels to make them passive (indication only).

- 12, zonal, fire & fault indications
- Up to 8 repeaters on a network
- Fault tolerant or legacy radial communication wiring
- 6 x programmable switch -ve outputs included on network card
- Class change inputs
- Fully functional or passive
- Test mode & disablement function controls

Technical Specification

MAIN FEATURES

ALARMSENSE CONTROL PANELS

One Man
Walk Test

ALARMSENSE

AlarmSense

Haes AlarmSense control panels provide 2 or 4 AlarmSense zones and have been developed specifically for use with the Apollo Fire Detectors range of AlarmSense devices which embrace two-wire technology. Ideal for HMO's.

- 2 or 4 AlarmSense zones
- 2 additional monitored conventional sounder circuits
- One man walk test
- Class change inputs
- Non priority alarm programming
- Coincidence alarm programming
- Suitable for full range of AlarmSense devices

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Mains Supply	1.25A internal switch mode power supply, Nom 27v DC
Battery Capacity	2 x 3.2Ah 12v VRLA
Detection Zones	2 or 4, AlarmSense protocol. EOL = 3K3R
Sounder Circuits	2 x monitored, fused @500mA. EOL = 3K3R
On Board Relays	1 x Fire, 1 x Fault, 3A, 30v volt free changeover
Outputs	1 x Fire, 1 x Fault 40mA switch -ve outputs
Switch Inputs	Class change & alert (pulsing)
Non Priority Alarm	Selectable per zone
Coincidence Alarm	Selectable per zone

Order Codes

AOV CONTROL PANELS

TwinWire

One Man
Walk Test

False Alarm
Mode

SZAOV®

A purpose designed single detection zone automatic opening vent control panel with integral 3A PSU to use with vents, windows and roof lights.

The SZAOV range has been developed to provide a comprehensive and flexible solution to smoke vent control scenarios.

- 3 amp integral PSU
- Single detection zone
- Switch inputs to control wide combination of vents
- Configurable Fireman switch inputs
- Thermostat input - Ventilation mode
- Optional support for Rain sensor, PIR and BMS control

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Mains Supply	3A internal switch mode power supply, Nom 27v DC
Battery Capacity	2 x 7Ah 12v VRLA
Detection Zones	Single monitored detection zone. EOL = 6K8
Twin Wire	Selectable in panel (enables AV devices to be connected to det cct)
On Board Relays	1 x Alarm, 1 x Fault, volt free changeover, Max 3A
Fireman's Switch Input	Fireman's control switch input for Open/Close/Auto
Vent Control Input	Vent control switch inputs, Open/Close (rocker switch)
Actuator Output	Reversal actuator control outputs (2.5A total max) can be configured as a maintained output for a magnetic door
Aux Output	28v, 2.5A. The Aux output should not be used to control sounders.
BMS Connection	0/10v positional control input 10% steps, 0/10v positional data output. (Available on separate PCB)
False Alarm Management	Type A

Order Codes

SZAOV-1001	1 zone non extendable, 3A PSU
------------	-------------------------------

Accessories

MZAOV-3002	PIR, rain sensor & BMS add on card

MZAOV-3002	PIR, rain sensor & BMS add on card

False Alarm Mode

One Man Walk Test

Twinwire

MZAOV[®]

A purpose designed one to four detection zone automatic opening vent control panel with integral 3A or 5A PSU to use with vents, windows and roof lights.

The MZAOV range has been developed to provide a comprehensive and flexible solution to smoke vent control scenarios.

- 3 or 5 amp integral PSU
- Up to 4 detection zones and 4 actuators
- Large graphical display
- Switch inputs to control wide combination of vents
- Configurable Fireman switch inputs
- Thermostat input - Ventilation mode
- Optional support for Rain sensor, PIR and BMS control

AOV MULTI ZONE 1 - 4 ZONE

MAIN FEATURES

Twinwire

One Man Walk Test

False Alarm Mode

MZAOV[®]

A purpose designed two to eight detection zone automatic opening vent control panel with integral 10A PSU to use with vents, windows and roof lights.

The MZAOV range has been developed to provide a comprehensive and flexible solution to smoke vent control scenarios.

- 10 amp integral PSU
- Up to 8 detection zones and 8 actuators
- Large graphical display
- Switch inputs to control wide combination of vents
- Configurable Fireman switch inputs
- Thermostat input - Ventilation mode
- Optional support for Rain sensor, PIR and BMS control

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref: MW334E Interpon powder coat
Mains Supply	10A internal switch mode power supply, Nom 27v DC
Battery Capacity	2 x 18Ah 12v VRLA
Detection Zones	1 - 8 monitored detection zones. EOL = 6K8
Twin Wire	Selectable in panel (enables AV devices to be connected to det cct)
On Board Relays	1 x Alarm, 1 x Fault, volt free changeover, Max 3A
Fireman's Switch Input	Fireman's control switch input for Open/Close/Auto
Vent Control Input	Vent control switch inputs, Open/Close (rocker switch)
Actuator Output	Reversal actuator control outputs (9A total max) can be configured as a maintained output for a magnetic door
Aux Output	Voltage free normally open relay contact, closing when the associated zone is activated, Max 3A
BMS Connection	0/10v positional control input 10% steps, 0/10v positional data output. (Available on separate PCB)
False Alarm Management	Type A, B and C dependency mode, approved by LPCB

Order Codes

MZAOV-1003	2 zone extendable to 8, 10A PSU
------------	---------------------------------

Accessories

MZAOV-3001	2 zone extension card
MZAOV-3002	PIR, rain sensor & BMS add on card

EXTINGUISHANT RELEASE CONTROL PANELS

ESPRIT-G SINGLE FLOOD AREA

ESPRIT®

The single flood area control panel has 3 detection circuits and ample sounder circuits for stage 1 and stage 2 alarms. A large graphical display and simple-to-navigate menu system allow easy and flexible configuration for all extinguishant release scenarios.

- Single flooding area
- 3 detection zones
- Approved to EN12094-1, EN54-2 & EN54-4
- Programmable countdown timers
- 255 time and date stamped event logs
- Large graphical display
- Fully configurable zone voting for gas release

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref MW334E Interpon Powder coat
Mains Supply	Universal switch mode PSU, 1.2A (ESG-1001), 3.4A (ESG-1002)
Battery Capacity	Up to 7Ah 24V VRLA
Detection Zones	3 x conventional zones. EOL = 6K8
Extinguishing Zones	1 x flooding/extinguishing zones support for metron & solenoid type actuators
Sounder Circuits	4 x 400mA 21-28vdc. EOL = 6K8
On Board Relays	6 x 1A 30VDC relay outputs, (fire, fault, stage 1 & 2, extract, local) x 1
Outputs	Additional outputs via add on output card, ESG-2005
Switch Inputs	CC, PULS
Monitored Inputs	Flow, Pressure, Release, Hold, Abort x 1
Countdown Timer	Extinguishant Delay: 0-60 secs Extinguishant Duration: 1-300 sec Flooding Time: 60-1800 secs Extract Time: 1-90 mins Reset Inhibit Time: 0-30 mins
Event Log	255 events, time & date stamped

Detection Zones	6 x conventional zones. EOL = 6K8
Extinguishing Zones	2 x flooding/extinguishing zones support for metron & solenoid type actuators
Sounder Circuits	6 x 400mA 21-28vdc. EOL = 6K8
On Board Relays	10 x 1A 30VDC relay outputs, (fire, fault, stage 1 & 2, extract, local) x 2
Outputs	Additional outputs via add on output card, ESG-2005 (1 card per flood zone)
Switch Inputs	CC, PULS
Monitored Inputs	Flow, Pressure, Release, Hold, Abort x 2
Countdown Timer	Extinguishant Delay: 0-60 secs Extinguishant Duration: 1-300 sec Flooding Time: 60-1800 secs Extract Time: 1-90 mins Reset Inhibit Time: 0-30 mins
Event Log	255 events, time & date stamped

Order Codes

ESG-1003	Dual flood area, 3.4A PSU
----------	---------------------------

Accessories

FMK-ES-02	Recessing bezel
ESG-2005	Output card
ESG-2002	Mini remote LED status indicator
ESG-2006	Remote Hold Off button
ESG-2007	Remote Abort button

ESPRIT®

The dual flood area control panel has 6 detection circuits and ample sounder circuits for stage 1 and stage 2 alarms in both flood areas. A large graphical display and simple-to-navigate menu system allow easy and flexible configuration for all extinguishant release scenarios.

- Dual flooding area
- 6 detection zones
- Approved to EN12094-1, EN54-2 & EN54-4
- Programmable countdown timers
- 255 time and date stamped event logs
- Large graphical display
- Fully configurable zone voting for gas release

ESPRIT-G DUAL FLOOD AREA

MAIN FEATURES

ESPRIT-G REMOTE DISPLAY STATUS UNIT

ESPRIT®

The Esprit-G remote display unit has the same large LCD graphic display as the control panel with a simple-to-navigate menu system. Additional LED indicators, a manual release button and an auto/manual key switch are also provided.

- Large graphic display
- Simple menu navigation
- Manual release button
- Auto/manual key switch
- Robust metal enclosure

Technical Specification

Enclosure	1.2mm Mild Steel IP30. Colour ref MW334E Interpon Powder coat
Display	4 x 40 character backlit LCD display
Input Voltage	Requires 24vdc supply
Connections	2 wire RS485 comms plus 24v +/- (4 wires)

Order Codes

ESG-2001	Graphic display remote status unit
----------	------------------------------------

Accessories

FMK-ES-03	Recessing bezel
-----------	-----------------

POWER SUPPLIES

TRX POWER SUPPLY

MAIN FEATURES

The Haes 'TRX' transformer rectifier power supplies are suitable for applications requiring a simple regulated 24vdc supply, where the charging of standby batteries is not required.

- High efficiency switched mode power supply
- 1A or 2.5A versions
- Regulated 24v dc supply output
- Integral load switching relay
- Wide mains input voltage range
- Overload protected

Technical Specification

Enclosure	1.2mm Mild Steel IP34. Colour ref: MW334E Interpon powder coat
Input Voltage	88-264vac, 47-63Hz
Input Current	TRX1A-24 = 0.55A / 230vac TRX2.5A-24 = 1.2A / 230vac
Output Voltage	24vdc
Maximum Current	TRX1A-24 = 1.5 amp TRX2.5A-24 = 3.2 amp
Maximum Continuous Load	TRX1A-24 = 1 amp TRX2.5A-24 = 2.5
Relay	Single pole volt free changeover, 24vdc coil

Order Codes

TRX1A-24	1 amp TRX power supply
TRX2.5A-24	2.5 amp TRX power supply

RELAYS & SWITCHES

AUXILIARY RELAY

MAIN FEATURES

8 amp, double pole, 24v dc changeover auxiliary relay switches, suitable for a multitude of site switching requirements. The relays are mounted in a flame retardant ABS enclosure and can be surface or flush fitted.

- 8 amp double pole relay
- Can be surface or recess fitted
- Contacts rated at up to 250v ac
- Outputs individually fused
- ‘Activated’ LED

Technical Specification

Operating Voltage	24v dc (nominal)
Contact Rating	250v ac 8A double pole changeover
Fuse	5 amp, 20mm quick blow (F)
Enclosure	ROHS compliant FR ABS - 87 W x 87 H x 55 D (mm)

Order Codes

BRF248A-R	Auxiliary relay, red
-----------	----------------------

Technical Specification

Operating Voltage	24v dc (nominal)
Contact Rating	250v ac 8A double pole changeover
Current Consumption	Normal: 0mA Isolated LED only: 5.3mA LED + buzzer: 7.8mA LED + relay: 12.1mA LED + relay + buzzer: 12.8mA Triggered: 18.3mA
Enclosure	ROHS compliant FR ABS - 87 W x 87 H x 55 D (mm)

8A 24vdc double pole changeover auxiliary relay with an isolate key switch which can be used to isolate the relay or energise the relay. Mounted in a flame retardant ABS enclosure which can be surface or flush fitted.

AUXILIARY ISOLATE RELAY

Order Codes

BRISOL-R	Aux isolate relay, red
----------	------------------------

- 8 amp double pole relays
- Can be surface or recess fitted
- Contacts rated at up to 250v ac
- Key switch can be used to Isolate or Activate the relay
- 'Isolated' LED

MAIN FEATURES

AUXILIARY TIMER/ PULSING RELAY

MAIN FEATURES

A multi-purpose 24v timer or pulsing relay with 8A double pole contacts, configurable to provide a variety of operational functions. Available as a boxed unit with isolate key switch or as a PCB only with self adhesive, Nylon mounting pillars.

- 8 amp double pole relay
- Delay timer or pulsing relay
- Can be surface or recess fitted
- Available as PCB only
- Isolate key switch on boxed version
- 2 colour relay status LED
- Set relay timer 0-255 secs/mins or hrs

Technical Specification

Operating Voltage	24v dc (nominal)
Contact Rating	250v ac 8A double pole changeover
Current Consumption	Normal: 7.5mA Isolated LED only: 24mA LED + buzzer: 38mA LED + relay: 43mA LED + relay + buzzer: 57mA Triggered: 24mA
Enclosure	ROHS compliant FR ABS - 87 W x 87 H x 55 D (mm)

Order Codes

BRTIMER	Timer/pulsing relay - boxed
RECARD-TMR	Timer/pulsing relay - PCB only

Technical Specification

Operating Voltage	24v dc (nominal)
Contacts	250v ac, 8A, VL 10A, double pole changeover
Current Consumption @ 28v	Normal: 7.5mA Activated: LED only: 24mA LED + buzzer: 37mA LED + relay: 43mA LED + relay + buzzer: 56mA
Enclosure	ROHS compliant FR ABS - 87 W x 87 H x 55 D (mm)

The Haes lockdown alarm switch has been developed to assist with the lockdown policy of any school, hospital or other public building. Works with existing fire alarm system with programmable relay ON & OFF times to provide a unique ring pattern.

Order Codes

BRLDA	Lockdown alarm switch
-------	-----------------------

- Provides pulsing or continuous alert of the impending lockdown of a building
- 8 amp double pole relay
- Use with existing fire control panel
- Key switch activation
- Alarm status LED indicator
- Programmable ON/OFF times to provide a unique ring pattern

**LOCKDOWN ALERT
ALARM PULSING RELAY**

MAIN FEATURES

FIRE ALARM ISOLATE SWITCH

The Haes Fire Alarm Mains Isolate Switch is a purpose designed switch for the isolation of the mains supply to a fire alarm control panel in accordance with the requirements of BS5839 Pt 1 and BS EN60669.

Technical Specification	
Switch Contacts	Double pole, 250v ac 10 Amps max continuous load
Fuse	5 x 20mm, quick acting F, H, 250 VAC ceramic tube
Enclosure	ROHS compliant FR ABS - 87 W x 87 H x 55 D (mm)

MAIN FEATURES

- Complies with the recommendations of BS 5839 Pt 1 & BS EN606
- Suitable for surface or recess fitting
- Fits standard 15mm single gang back box
- Power indicator LED
- Uses standard fish key
- 10A rated switch
- Double pole isolation for increased safety

Order Codes	
FAIS-R-B	Fire alarm mains isolate switch
